

**BRACKET FOR ONE DIN CHARGING BOX**

The bracket is compatible with the CHARGESTORM® CONNECTED charger and allows a charging box to be fitted to a post. The bracket is mounted on an existing 60 mm post or a post can be purchased via CTEK E-Mobility. The charging box is fitted to the bracket with four bolts which are supplied. The bracket is fixed to a 60 mm post with three bolts which are supplied.

This bracket is intended for one charging box. The bracket also has an internal DIN rail and a "rucksack" which allows the feed and the network connection to be fitted inside the bracket. The terminal block for the DIN rail is not included.
